## Register before visiting DRCs

Storm and flood victims who plan to visit a disaster recovery center are asked to register for assistance by calling 1-800-621 FEMA (3362) or TTY 1-800-462-7585 or visit [www.fema.gov](http://www.fema.gov), even if they previously reported their damage to local authorities. They need to formally register with FEMA to be eligible to receive assistance.

FEMA's Community Relations (CR) Teams are mobilized in the declared counties. The CR Teams are providing disaster information on how to register with FEMA. CR members are also assisting at the Disaster Recovery Centers located in Columbus, Milwaukee, Reedsburg, Soldiers Grove and Viroqua.

Additional centers in the other declared disaster counties are also expected to open. Exact locations will be forthcoming.

### **Food assistance available for flood victims**

Governor Jim Doyle announced the Department of Health and Family Services will make available emergency food assistance for residents of Columbia, Crawford, Milwaukee, Racine, Richland, Sauk and Vernon counties. Residents of these counties will have from Thursday, June 19 through Friday, June 27 to apply for food assistance. Applications and information can be found at <http://dhfs.wisconsin.gov/FoodShare/flood/>.

### **Shelter and Food Information**

Shelters are available in the following communities to victims of flooding: Muscoda, Janesville, Fort Atkinson, Fond du Lac and Milwaukee.

The Salvation Army reports that mobile feeding units are available in Crawford, Vernon, Sauk, Fond du Lac and Jefferson counties.

### **Rock River Cresting/Janesville Central and Monterrey Dams**

The Rock River is expected to crest today in Afton, south of Janesville, and over the weekend at Fort Atkinson. DNR engineers and City of Janesville consultants inspected Janesville Central Dam, which generates hydroelectric power, and found no imminent threat to its integrity. Later today, they will inspect Janesville Monterrey Dam, south of the city in an area of light development. Monterrey Dam overtopped last week.

For more information on river cresting, visit <http://www.crh.noaa.gov/ahps2/index.php?wfo=mkx>

### **Nearly 5,000 SBA Loan Applications Issued**

The U.S. Small Business Administration (SBA) has issued 4,966 SBA low interest loan applications for Wisconsin home owners and businesses with more applications expected to be issued. Over 4,000 of the applications are from home owners.

### **ROADS**

#### **Opened**

The Wisconsin Interstate System is now open to travel.

I-94 at Johnson Creek is restricted to one lane in each direction with speed limits of 45-55 mph. The Wisconsin Department of Transportation (WisDOT) is still **encouraging travelers to use alternate routes** if possible due to reduced speeds and likely backups in the corridor during peak travel periods.

**WisDOT advises northbound Illinois travelers to use I-39/90 from Beloit and I-43 from Milwaukee to reach their destinations.**

### **Major closures**

- WIS 26 westbound on-ramp to I-94 is closed.
- I-94 WB Rest Area in Jefferson County is closed.
- WIS 33 between I-39 and Portage is closed indefinitely.

More road closures can be viewed here:

### **Road conditions**

Telephone: **1-800-ROAD-WIS (762-3947)**.

On the web: (<http://www.dot.wisconsin.gov/travel/incident-alerts.htm>) has up-to-date maps and information on road closures for Interstate and major state highways.

### **Passenger rail**

Amtrak may open service on 6/21 from Chicago to St Paul via a Burlington Northern Santa Fe (BNSF) detour. Service is not open through WI to any of the normally served cities because the Canadian Pacific Rail line that carries Amtrak trains is underwater. Amtrak will bus WI customers to the BNSF connection.

The buses have been mimicking the train route and schedules, stopping at stations between Milwaukee and St. Paul, including Wisconsin Dells, Portage and La Crosse. Columbus and Portage are skipped because of the flooded connections to Interstate 90/94.

### **Red Cross**

The Red Cross is operating several service centers where those affected by the floods and tornadoes can receive a full cadre of Red Cross disaster services including: client casework and assistance, bulk distribution of clean-up items, disaster mental health services (confidential), disaster health services, and information on how to help continue with the recovery process in a safe and effective manner.

**All client service centers will operate seven days a week as long as the need is there from 9 a.m. to 6 p.m. (CDT). Clients are asked to bring identification with them in order to help expedite the process.**

**Current locations for full service delivery sites in southern Wisconsin are: (Subject to change in the coming days)**

### **Leaking fuel oil**

The Emergency Operations Center has received two reports of home fuel oil leaking from tanks located in flooded basements. Homeowners who have leaking fuel oil should contact the Department of Natural Resources at phone numbers listed online:

<http://dnr.wi.gov/org/aw/rr/spills/coordinators.pdf>

### **Lake Koshkonong status being monitored**

Department of Natural Resources wardens and the National Guard identified hazards and removed them from Lake Koshkonong with the intent of keeping the Highway 59 Bridge clear. Many large items were removed including pier sections, two boats, tires, logs and picnic tables. DNR recommended that DOT continue to monitor the bridge area in the event additional items float down stream.

DNR reports that the bogs from Black Hawk Island are under control at this time.

### **Wisconsin Army National Guard**

The Wisconsin Army National Guard has approximately 300 personnel from Army and Air units throughout the state assisting with life safety issues and emergency road repair in Richland, Sauk and Vernon Counties and other areas as needs are identified. The Guard is also overseeing sandbagging efforts in Jefferson.

The National Guard is also operating traffic control points on flooded roads in:

- Columbia County (4)
- Janesville (6)
- Jefferson County (5)

In Fort Atkinson, the Wisconsin Air National Guard is using a 100 kilowatt generator to power a sewage lift station which has lost electricity.

### **Strike teams**

The Wisconsin Department of Corrections deployed 18 strike teams (approximately 108 inmates) in five locations to do sandbagging and debris removal.

### **State agency support**

Wisconsin Emergency Management along with other state agencies and the National Guard, continue to provide support for the State Emergency Operations Center and the Joint Operations Center. State personnel are working closely with FEMA in the Joint Field Office and in field operations in the Disaster Recovery Centers and Damage Assessment Teams. Additionally, assistance is being provided to communities across southern Wisconsin from the Department of Transportation – Highways, the Wisconsin State Patrol, the Department of Health and Family Services (DHFS), DNR Law Enforcement and Dam Safety, the Department of Agriculture, Trade and Consumer Protection, the Department of

Commerce, the Red Cross, the Salvation Army, the Wisconsin National Guard and many more.

**Disease control**

The DHFS reports no new diseases as a result of the flood.

**Septic systems**

The Department of Commerce reminds owners of flooded, privately-owned septic systems that the water must recede and the system be pumped before reuse.
