Damage assessments will begin tomorrow morning in LaCrosse and other communities that sustained storm and tornado damage. In addition, the National Weather Service will begin to survey damage to determine if the damage was caused by a tornado and the strength of the tornado.

WEM has staff in the LaCrosse area working with local officials. In addition, the state is providing portable light towers. No other assistance has been requested.

The State Emergency Operations Center has transitioned back to the 24 hour duty officer system with the WEM Senior Duty Officer and the Duty Officer continuing to monitor the situation.
