

## WISCONSIN EMERGENCY MANAGEMENT

# Badger HSEEP – Core Capabilities Activity Tasks

14 January 2014

Core Capability	Core Capability Description	Activity Focus	Activity Support Tasks
<b>Access Control and Identity Verification</b>	Apply a broad range of physical, technological, and cyber measures to ensure that admittance to controlled locations and systems is limited to those needing access for legitimate activities.	Security Protocols	+ Implement and maintain protocols to verify identity and authorize, grant, or deny physical and cyber access to specific locations, information, and networks
<b>Community Resilience</b>	Facilitate an integrated effort to recognize, understand, communicate, plan, and address risks so that the community is fully aware, trained, and practiced on how to prevent, protect/mitigate, prepare for, and respond to all threats and hazards to improve resilience.	Community Preparedness & Participation	+ Coordinate community preparedness & participation + Implement, exercise, and maintain plans to ensure Continuity of Operations (COOP) + Conduct Continuity of Operations (COOP) and Continuity of Government (COG)
<b>Critical Transportation</b>	Prepare for and support sheltering-in-place and evacuation of at-risk population (and companion animals) to areas of safe refuge, including the provision of evacuation transportation and the delivery of vital response personnel, equipment, and services into the impacted area. In addition, provide transportation support for the safe return of evacuated population.	Citizen Evacuation & Shelter in Place	+ Direct evacuation and/or shelter-in-place protection operations + Activate evacuation and/or shelter-in-place protection operations + Implement evacuation orders for general population + Implement in-place protection procedures + Coordinate delivery of vital response personnel, equipment, and services into the impacted area + Assist re-entry + Demobilize operations
		Transportation Support	+ Direct and coordinate provision of evacuation transportation + Direct and coordinate provision of re-entry transportation
<b>Cybersecurity</b>	Project a safe, secure, and resilient cyber environment by protecting against damage to, the unauthorized use of, and/or the exploitation of electronic communications systems, including restoration to pre-attack condition.	Security Protocols	+ Implement protocols to ensure the security, reliability, integrity, and availability of critical information, records, and communications systems & services + Implement protocols to detect malicious activity and to conduct technical & investigative-based countermeasures and mitigation
<b>Economic Recovery</b>	Implement recovery and restoration processes following an incident that will restore economic and business activities to a healthy state and develop new business and employment opportunities.	Economic & Community Recovery	+ Direct economic and community recovery operations + Assess and prioritize recovery needs + Provide monetary relief + Provide non-monetary relief + Demobilize operations

<b>Core Capability</b>	<b>Core Capability Description</b>	<b>Activity Focus</b>	<b>Activity Support Tasks</b>
<b>Environmental Response/Health and Safety</b>	Protect the public and emergency responders from environmental hazards and health effects of all environmental health emergencies	Environmental Health	+ Conduct environmental health operations + Assess Environment Hazards + Monitor/Respond to Environmental Hazard
		Responder Safety & Health	+ Conduct responder safety and health operations + Identify safety/PPE needs and distribute PPE + Monitor responder safety and health
<b>Fatality Management Services</b>	Conduct fatality management services and support to recover, identify and effect final disposition of human remains; preserve the scene and collect evidence (as needed); and provide family assistance to victims' relatives and loved ones	Fatality Management	+ Conduct fatality management operations + Conduct on-scene operations + Conduct morgue operations + Manage ante mortem data + Conduct victim identification + Conduct final disposition
<b>Forensics and Attribution</b>	Conduct forensic collection & analysis to support prevention, interdiction, disruption and attribution of terrorist acts.	Collection and Analysis	+ Prioritize chemical, biological, radiological, nuclear, and explosive material collection and analysis to assist in preventing initial or follow-on terrorist acts + Prioritize biometric collection and analysis to assist in preventing initial or follow-on terrorist acts + Prioritize digital media and network exploitation to assist in preventing initial or follow-on terrorist acts
<b>Health and Social Services</b>	Restore impacted health and social services networks to provide for community needs.	Restoration Operations	+ Restore impacted health and social services networks to provide for the impacted community needs + Identify critical areas of need for health and social services, as well as key partners and at-risk individuals in short/long term recovery + Restore & improve the resilience and sustainability of the health and social services networks
<b>Housing</b>	Implement resilient housing/shelter solutions that effectively meet the emergency needs of the whole community.	Resilient Housing Strategies	+ Implement, restore & improve housing strategies in response to at-risk hazard consequences
<b>Infrastructure Systems</b>	Initiate damage/safety assessment and sustain activities to restore & stabilize critical infrastructure systems.	Structural Damage Assessment	+ Conduct structural damage inspections & assessment
		Restoration of Lifelines	+ Decrease and stabilize immediate life-sustainment infrastructure failure threats to the impacted population. + Re-establish critical infrastructure within the affected areas to support ongoing emergency response operations, life sustainment, community functionally, and transition to recovery. + Restore and sustain essential services (public & private). + Conduct debris removal/management operations + Develop a strategy for redevelopment of damaged community infrastructure that contributes to resiliency and sustainability.

<b>Core Capability</b>	<b>Core Capability Description</b>	<b>Activity Focus</b>	<b>Activity Support Tasks</b>
<b>Intelligence and Information Sharing</b>	Provide/exchange timely, accurate, and actionable information by Federal, state, tribal, local or other stakeholders concerning threats to the United States	Information Gathering and Recognition of Indicators & Warning	+ Establish and communicate information needs + Gather Information + Anticipate and identify emerging and/or imminent threats through the information gathering cycle.
		Intelligence, Analysis and Production	+ Maintain, operate, and staff Intelligence fusion center/process + Ensure federal, state, local, and private sector partners possess or have adequate connectivity to submit collected information + Develop analytic products + Ensure Federal, state, local, and private sector partners possess or have adequate access collected information/intelligence + Integrate and analyze information/intelligence products
<b>Interdiction and Disruption</b>	Broad range of activities taken by law enforcement agencies to delay, divert, intercept, halt apprehend, or secure threats and/or hazards	Counter-Terror Investigation & Law Enforcement	+ Anticipate, monitor and identify emerging and/or imminent threats + Deter, detect, interdict, and protect against domestic and transnational criminal and terrorist activities that threaten security of key operational and critical infrastructure sectors
<b>Long-Term Vulnerability Reduction</b>	Build and sustain resilient systems, communities, critical infrastructure and key resource lifelines to reduce vulnerability to natural, technological and human-caused incidents.	Vulnerability Reduction	+ Conduct vulnerability reduction strategies in mitigation and recovery activities.
<b>Mass Care Services</b>	Provide shelter, feeding centers, first aid, bulk distribution of needed items, reunification activities and related life-sustaining services to the impacted community.	Mass Care	+ Activate and mobilize mass care personnel and resources. + Establish, staff, and equip emergency general population and functional needs population shelters and other temporary housing options for the affected population. + Shelter companion animals + Establish feeding operations. + Move and deliver resources and capabilities to meet the needs of the disaster victims
<b>Mass Search &amp; Rescue Operations</b>	Coordinate and conduct traditional/atypical search and rescue for victims (humans and animal) to locate, access, medically stabilize and extricate from the damaged area.	Search & Rescue (Land-Based)	+ Activate and coordinate search and rescue operations. + Provide materials/resources as needed to support Search and rescue operational needs. + Conduct search and rescue reconnaissance. + Conduct search and rescue. + Extricate search and rescue victims. + Coordinate medical stabilization of rescued victims.
<b>Natural and Cultural Resources</b>	Conduct efforts to protect natural, historic and cultural resources at-risk to disaster consequences through appropriate planning, mitigation, response and recovery actions.	Protection of Natural, Historic & Cultural Resources	+ Coordinate activities to protect and mitigate disaster consequences to natural, historic and cultural resources at risk to disaster damage

<b>Core Capability</b>	<b>Core Capability Description</b>	<b>Activity Focus</b>	<b>Activity Support Tasks</b>
<b>On-scene Security and Protection</b>	Reduce the impact and consequences of an emergency incident by securing and rendering safe incident threats and providing security support for response personnel engaged in lifesaving operations.	Public Safety and Security	+ Conduct public safety and security response operations + Control traffic, crowd and scene + Conduct law enforcement operations
		Explosive Device Response Operations	+ Conduct explosive device response operations + Search and assess site + Render safe onsite + Conduct recovery, removal, and transport operations
<b>Operational Communications</b>	Establish and maintain adequate internal, external and interoperable communications systems and protocols to support emergency response & recovery operations.	Communications	+ Conduct immediate incident alert & notification + Establish and maintain interoperable voice, data and video communications in support of the Incident Command & Emergency Operations Center response & recovery operations
<b>Operational Coordination</b>	Conduct incident response and recovery operations using the Incident Command System to establish and maintain a unified and coordinated operational structure and process that supports performance/support of needed core capabilities.	Onsite Incident Management	+ Implement on-site incident Command + Conduct resource management + Develop incident action plan + Execute incident action plan + Evaluate and revise incident action plan (as needed) + Demobilize operations
		EOC Management	+ Activate emergency operations center + Gather and provide information + Identify and address issues + Prioritize and provide resources + Support and coordinate response requirements + Demobilize operations
<b>Physical Protective Measures</b>	Support directed strategies to reduce or mitigate threats, vulnerabilities, and/or consequences, by controlling movement and protecting borders, critical infrastructure, and the homeland.	Critical Infrastructure Protection	+ Coordinate and manage critical infrastructure protection + Identify critical infrastructure/key resources + Assess risk + Establish protection priorities + Implement actions to protect and mitigate potential consequences of risk + Measure protective actions effectiveness
<b>Planning</b>	Creation and maintenance of effective plans & procedures to support and resource community strategy to achieve the specific mission areas of prevention, protection, mitigation, response and recovery from all hazard emergencies & threats.	Planning	+ Create, train, exercise, evaluate and revise emergency operations plans & procedures + Facilitate effective & timely access to emergency operations plans & procedures 24/7 + Monitor information on local, state, regional and national natural, man-made and technological hazards + Review AAR documentation on local, state, regional and national disaster response for lessons learned

<b>Core Capability</b>	<b>Core Capability Description</b>	<b>Activity Focus</b>	<b>Activity Support Tasks</b>
<b>Public and Private Services and Resources</b>	Provide and/or restore essential public and private resources & services to include fire and other first response activities.	Fire Fighting Operations & Support	+ Activate firefighting operations & support + Assess site + Conduct firefighting operations & support + Search scene & rescue + Contain and control + Conduct overhaul operations + Conduct cause & origin investigation + Demobilize operations
		WMD, Hazardous Materials Response and Decontamination	+ Conduct site management and control + Identify the problem + Conduct hazard assessment and risk evaluation + Select personal protective clothing and equipment + Conduct information management and resource coordination + Implement response objectives + Conduct decontamination & clean-up/recovery operations
		Volunteer Management & Donations	+ Activate volunteer/donations management coordinator & staff + Coordinate volunteer tracking & assignments + Coordinate donations collection/management/distribution support operations + Coordinate cash donations to appropriate voluntary organizations + Demobilize volunteer/donations management operations
		Critical Resource Logistics and Distribution	+ Activate critical resource logistics and distribution activities + Conduct short-term needs assessment and inventory + Conduct long-term needs assessment and inventory + Coordinate support response operations + Transport, track, and manage resources & costs + Recover resources (as necessary) + Demobilize operations
<b>Public Health and Medical Services</b>	Provide lifesaving medical treatment via emergency medical services & support operations by providing targeted public health-medical support and products to the impacted community/population.	Emergency Triage and Pre-Hospital Treatment	+ Direct emergency triage and pre-hospital treatment operations + Coordinate w/on-site law enforcement to ensure the incident site has been declared safe for triage operations + Conduct triage treatment and transportation + Demobilize operations
		Epidemiological Surveillance and Investigation	+ Conduct & support epidemiological surveillance and investigation operations + Conduct surveillance and detection + Conduct epidemiological investigation + Manage and monitor containment

<b>Core Capability</b>	<b>Core Capability Description</b>	<b>Activity Focus</b>	<b>Activity Support Tasks</b>
<b>Public Health and Medical Services</b> (continued)		Isolation and Quarantine	+ Conduct & support isolation and quarantine operations + Mobilize personnel & resources to contain disease outbreak + Implement travel restrictions + Implement voluntary or mandatory isolation and quarantine + Demobilize operations
		Public Health Laboratory Testing	+ Direct public health laboratory testing + Conduct sample and specimen management + Conduct detection testing and analysis + Support public health epidemiological investigations + Report surveillance results
		Mass Prophylaxis	+ Conduct & support mass prophylaxis operations + Activate mass prophylaxis + Conduct triage for symptoms + Conduct medical screening + Conduct mass dispensing + Monitor for adverse effects + Demobilize conduct & support of mass prophylaxis operations
		Medical Supplies Management and Distribution	+ Conduct & support medical supplies management and distribution operations + Manage warehouse operations, security, and distribution + Recover medical resources + Demobilize operations
<b>Public Health and Medical Services</b> (continued)	Provide lifesaving medical treatment via emergency medical services & support operations by providing targeted public health-medical support and products to the impacted community/population.	Medical Surge	+ Conduct & support medical surge operations + Increase bed surge capability + Maximize medical surge staffing procedures + Conduct & support decontamination operations (as necessary) + Receive, evaluate, and treat surge casualties + Provide surge capacity for behavioral health issues + Demobilize conduct & support of medical surge operations
<b>Public Information and Warning</b>	Deliver coordinated, timely, reliable, actionable and authorized information to the whole community through the use of clear, consistent, accessible, and culturally & linguistically appropriate methods to relay information regarding any incident threat/ hazard and the actions being taken by responders, actions that should be taken by the audience and assistance resources being made available.	Public Information & Warning	+ Manage emergency public information and warnings + Activate emergency public information, alert/warning, and notification operations + Establish joint information system/center operations (as needed) + Issue emergency warnings + Conduct media relations + Provide public rumor control + Demobilize emergency public information and warnings operations
<b>Risk and Disaster Resilience Assessment</b>	Assess risk and disaster resilience so that decision makers, responders, and community members can take informed action to reduce their entity's risk and increase their resilience.	Disaster Resilience	+ Conduct & update risk assessments that identify localized vulnerabilities and consequences associated with natural, Technological and human-caused threats.

<b>Core Capability</b>	<b>Core Capability Description</b>	<b>Activity Focus</b>	<b>Activity Support Tasks</b>
<b>Risk Management for Protection Programs and Activities</b>	Identify, assess, and prioritize risks to inform protection activities and investments	Risk Management	+ Coordinate outreach to critical infrastructure sectors and protection elements to ensure their risk management processes identify and prioritize assets, systems, networks, and functions.
<b>Screening, Search, and Detection</b>	Identify, discover, or locate threats and/or hazards through active and passive surveillance and search procedures.	CBRNE Detection	+ Conduct CBRNE search/detection operations in multiple locations and in all environments, consistent with established protocols + Detect WMD, traditional, and emerging threats and hazards + Initiate operations immediately to locate persons and networks associated with imminent terrorist threat or act.
<b>Situational Assessment</b>	Provide all decision makers with decision-relevant information regarding the nature and extent of the hazard, any cascading effects, and the status of the response	Situational Assessment	+ Conduct information sharing procedures, with supporting technology, at the Incident Command Post and Emergency Operations Center to support development of a common operating picture among stakeholders + Coordinate with subject matter experts among impacted stakeholders to gather relevant information to assist in response & recovery strategy
<b>Supply Chain Integrity and Security</b>	Strengthen the security and resilience of the supply chain	Food and Agriculture Safety and Defense	+ Direct food and agriculture safety and defense operations + Conduct surveillance + Trace suspect products + Implement control measures for contaminated food products or diseased crops + Conduct product disposal and food facility decontamination
		Animal Health Emergency Support	+ Direct animal health emergency support operations + Conduct animal health epidemiological investigation & surveillance + Implement & support disease containment measures + Provide for animal welfare + Conduct euthanasia/disposal operations
<b>Threats and Hazard Identification</b>	Identify the threats and hazards that occur in the geographic area; determine the frequency and magnitude; and incorporate this into analysis and planning processes so as to clearly understand & plan for the potential emergency needs of the whole community.	Threat/Hazard Identification	+ Coordinate identification of entity threats and hazards in collaboration with the whole community of stakeholders

# WISCONSIN EMERGENCY MANAGEMENT

## **CORE CAPABILITIES CROSSWALK**

PPD-8 introduced the concept of “Core Capabilities”, which are designed to provide an integrated approach to preparedness by incorporating several of the traditional “Target Capabilities” together or creating a new capability.

The following crosswalk identifies the relationship of the former 37 Target Capabilities to the 31 Core Capabilities.

<b>Core Capability</b>	<b>Prior Target Capability</b>
Access Control & Identity Verification	None
Community Resilience	Community Preparedness & Participation
Critical Transportation	Citizen Evacuation & Shelter-in-Place
Cybersecurity	None
Economic Recovery	Economic & Community Recovery
Environmental Response/Health/Safety	Environmental Health Responder Safety & Health
Fatality Management Services	Fatality Management
Forensics and Attribution	None
Health & Social Services	None
Housing	None
Infrastructure Systems	Restoration of Lifelines Structural Damage Assessment
Intelligence & Information Sharing	Information Gathering Intelligence Analysis & Production Intelligence/Info Sharing & Dissemination
Interdiction & Disruption	Counter-Terror Investigation & LE
Long-Term Vulnerability Reduction	None
Mass Care Services	Mass Care
Mass Search & Rescue Operations	Search & Rescue (land based)
Natural and Cultural Resources	None
On-Scene Security & Protection	Emergency Public Safety & Security EOD Response Operations
Operational Communications	Communications
Operational Coordination	EOC Management On-Site Incident Management
Physical Protective Measures	Critical Infrastructure Protection
Planning	Planning
Public and Private Services & Resources	Fire Incident Response Support WMD/Hazmat Response & Decon Volunteer Management & Donations Critical Resource Logistics & Distribution
Public Health & Medical Services	Mass Prophylaxis Triage & Pre-Hospital Treatment Medical Surge Medical Supplies Mgmt & Distribution Epidemiological Surveillance & Investigation Isolation & Quarantine Laboratory Testing

Public Information & Warning	Public Information & Warning
Risk & Disaster Resilience Assessment	None
Risk Management for Protection Programs & Activities	Risk Management
Screening, Search, & detection	CBRNE Detection
Situational Assessment	None
Supply Chain Integrity & Security	Food & Agriculture and Defense Animal Disease Emergency Support
Threat & Hazard Identification	None
